

## Electrical Design Engineer I

iFactor is looking to add skilled and ambitious individuals to our growing team. We currently have positions available for entry level and junior electrical engineers. We provide a fun, collaborative atmosphere for our team, with opportunities for professional development in both engineering and management. As a testament to this, iFactor has been voted 10 years in a row as Best Places to Work in Los Angeles County by the Los Angeles Business Journal.

Our firm specializes in engineering and consulting for the building construction industry. We are growing steadily, and always looking for new talent to enhance our team. We are looking for engineers that have a passion for buildings, and that can grow into senior technical and project management positions over time; we have a strong mentor and training program to help you succeed in your professional development.

Our company is committed to providing exceptional client service for technically demanding projects. We provide master planning, design, project management, and commissioning services for data centers, critical facilities, healthcare, government, and institutional, and general commercial clients. We are regarded as experts in our field and want to hire individuals that will continue that tradition.
